

Don't miss out on the best day of the semester!

Have you ever wondered what an engineer actually does?

In 2022, the eighth annual Introduce a Girl to Engineering Day will take place. Companies like BillerudKorsnäs, Södra, WSP, Zound Industries and many more will open their doors and show you what it means to be an engineer.

Who can participate?

Anyone between the ages of 13 and 19 who identifies as a girl or non-binary person can participate, regardless of where they live. Regardless of the subjects you study or your interest in tech, you're welcome to take part!

How do I sign up?

Registration is open between January 10 and March 11. You can apply and find out which companies are participating on our website, [womengineer.org](https://www.womengineer.org).

What is IGEday?

On Friday 25 March 2022

you'll have the chance to visit a company and **try out** life as an engineer for a day.

 **IGEday**
