

# IGEday

22 mars 2024

## What is IGEday?

On Friday 22 March 2024 you'll have the chance to visit a company and try out life as an engineer for a day.

Don't miss out on the best day of the semester!

## Have you ever wondered what an engineer actually does?

In 2024, the tenth annual Introduce a Girl to Engineering day will take place. Companies like Billerud, Volvo Group, Blocket, and many more will open their doors and show you what it means to be an engineer.

### Who can participate?

Anyone between the ages of 13 and 19 who identifies as a girl or non-binary person can participate, regardless of where they live. Regardless of the subjects you study or your interest in tech, you're welcome to take part!

### How do I sign up?

Registration is open between January 8 and March 6. You can apply and find out which companies are participating on our website, [igeday.com](https://igeday.com).

*PS. It's free of charge to participate, but the number of spots are limited!*
